J. Paediatr. Child Health (1999) **35**, 598–603

Subject Index

Abstracts; A1 Division of Paediatrics, The Royal Australasian College of Paediatrics, Paediatric Abstracts presented at the Annual Scientific Meeting, May 1999

Aboriginal
  Australian Aboriginal health needs 130
  community; iron treatment trial in an 153
  health; clinical research in (Editorial Comment) 123
  infants
    care practices in a metropolitan Aboriginal population 541
    sudden infant death syndrome in 541
  low rates of hospitalization for asthma among Aboriginal children compared with non-Aboriginal children of the Top End of the Northern Territory 438
acute flaccid paralysis; surveillance in Australia; World Health Organization certification process for polio eradication 536
acute lymphoblastic leukaemia; and ecthyma gangrenosum 505
acute otitis media; should we now hold back from initially prescribing antibiotics? (Annotation) 9
adolescence
  and child psychiatric outreach service for rural New South Wales, a telemedicine pilot study 525
  transition from paediatric to adult care for persons with cystic fibrosis 442
adult respiratory distress syndrome; H5N1 avian influenza infection in a human with complications of 207
alarm limits; settings for the Marquette 8000 pulse oximeter to prevent hyperoxic and hypoxic episodes 159
alcohol use; by parents who present their children to a paediatric emergency department 196
alternative therapies; in attention-deficit hyperactivity disorder 450
amikacin; prospective toxic effects in neonates 283
Angel trumpet lily poisoning; clinical findings and management of 93
anorectal malformation; and fetal defaecation (Review Article) 116
antibiotics
  acute otitis media and (Review Article) 9
  resistance in *Streptococcus pneumoniae* isolated from children 558
  resistance to *Streptococcus pneumoniae* in Northern Territory children in day care 466
  should we now hold back from initially prescribing antibiotics for otitis media (Annotation) 9
  treatment of acute uncomplicated Salmonella enteritis in children 372
  therapy; Salmonella enteritis (Editorial Comment) 338
aplasia cutis congenita; in a preterm infant 306
asthma
  among Aboriginal children compared with non-Aboriginal children of the Top End of the Northern Territory 438
  and chemotherapy 269
  communication between hospital and general practitioners 251
  inhaled budesonide therapy 483
atopic eczema; social and financial costs (Annotation) 229
atrial septal defects; in Malta 190
attention deficit hyperactivity disorder
  and juvenile mania 199
  confirmation that Child Behavior Checklist clinical scales discriminate juvenile mania from 199
  psychostimulant medication for 264
  utilization of alternative therapies for 450
AUDIT CORE questionnaire; parental alcohol use 196
autopsy
  evaluation, following death in a Level IV neonatal intensive care unit 185
  protocols; suffocation, shaking or sudden infant death syndrome (Annotation) 432
avian influenza; first case of H5N1 avian influenza infection in a human with complications of adult respiratory distress syndrome and Reye's syndrome 207
aviation fuel; elevated creatinine concentrations after ingestion of model aviation fuel, interference with the Jaffe reaction by nitromethane 503
awake daytime oximetry; measurements in the management of infants with chronic lung disease 553

Bacillus cereus meningitis; in newborn infants 582
bacterial endocarditis; central venous catheters in neonates with 545
behaviour; stress experienced by mothers of Malaysian children with mental retardation 358
behavioural problems
  12-month profile of community paediatric consultations 16
  associated with short stature at 5 years 562
  in Prader–Willi syndrome (Review Article) 331
birthweight percentiles; by gestational age for twins born in Australia 278
bone marrow transplantation; in children with haemophagocytic lymphohistiocytosis 55
book reviews 110–113, 226–228, 327–329, 414–417, 507–511
botulinum toxin A; versus fixed cast stretching for dynamic calf tightness in cerebral palsy 71
boxing (Letter and Reply) 223
breast-feeding
  Bayley's Mental Developmental Index; duration of 82
  hypernatraemic dehydration; and fever in exclusively breast-fed infants 585
  infant care practices in a metropolitan Aboriginal population 541
  mental development 82
bronchiectasis; and bronchiolitis obliterans post respiratory syncytial virus infection 497
budesonide
  in acute asthma 483
  inhaled versus placebo in the treatment of croup 170

Caesarean section; in babies with antenatal diagnosis of gastroschisis 181

calf tightness; botulinum toxin A versus fixed cast stretching for 71
calvarial tuberculosis; a rare form of tuberculous osteitis 221
Camphor toxicity; paediatric poisoning 105
Camurati–Engelmann disease; deflazacort treatment in progressive diaphyseal dysplasia 401
cancer
  chemotherapy reduces the prevalence of asthma symptoms 269
  varicella vaccine in non-immune household contacts of children with leukaemia or 341
car cargo barriers; childhood deaths in cars 409
cefaclor; its role for serum sickness in a paediatric emergency department (Letter) 223
centro-temporal spikes; in non-epileptic children 60
cerebral palsy; botulinum toxin A versus fixed cast stretching for dynamic calf tightness in 71
chemotherapy; reduction of the prevalence of asthma symptoms in children with cancer 269
child abuse; nurse home visiting to vulnerable families with newborns 237
Child Behavior Checklist; juvenile mania and attention deficit hyperactivity disorder 199
child growth; early linear growth retardation in Chongqing, China 272
childhood deaths; cargo barriers in cars 409
childhood epilepsy; centro-temporal spikes in 60
chronic diarrhoea; causes clinical features and outcomes of Malaysian children with 260
chronic lung disease
  awake daytime oximetry; measurements in the management of infants with 553
  rehospitalisation in first year of life in very preterm infants 145
cisapride and Caesarean section; their role in babies with gastroschisis 181
clinical practice guidelines; pancreatic enzyme replacement therapy in cystic fibrosis (Clinical Practice) 125
clinical profile and outcome; of gastro-oesophageal reflux 568
clinical research in Aboriginal health (Editorial Comment) 123
CO_2 laser; management for subglottic haemangioma 392
coeliac disease; and ulcerative colitis in a child 204
cognitive association; with short stature at 5 years 562
cohort studies; hospital admissions in the first year of life in very preterm infants 145
community paediatric consultations; 12-month profile of 16
community-based general paediatricians; the evolving role of 23
computed tomography; papilloedema secondary to acute purulent sinusitis 396
congenital absence of skin; in a preterm infant 306
congenital heart disease; evolution of diagnostic trends 387
congenital myotonic dystrophy; survival of a 30-week baby ventilated for 55 days 313
Coxsackie B4 infection in a neonatal unit; successful containment of 102
creatinine concentrations; after ingestion of model aviation fuel, interference with the Jaffe reaction by nitromethane 503
critical illness; evaluating the effects in children and their parents (Letter) 325
croup; inhaled budesonide versus placebo in the treatment of 170
Cryptosporidium parvum; epidemiology in symptomatic paediatric oncology patients 300
Cushing's syndrome; McCune–Albright syndrome and 315
cyclical vomiting syndrome; (Letter) 325
cystic fibrosis
  growth failure in 86
  pancreatic enzyme replacement therapy in (Clinical Practice) 125
  transition from paediatric to adult care 442

deflazacort; treatment for progressive diaphyseal dysplasia (Camurati–Engelmann disease) 401
dehydration; and fever in exclusively breast-fed infants 585
depressed skull fractures; non-surgical management in neonates 96
development
  and temperament, aetiological factors of children with obstructive sleep apnoea 140
  children at play, death and injury patterns 572
  sleep related behaviour in children with obstructive sleep apnoea 136
  value of parents' concerns to detect and address developmental and behavioural problems (Review Article) 1
developmental problems; value of parents' concerns to detect and address (Review Article) 1
diabetes; metabolic control in children and adolescents 479
dietary therapy; for phenylketonuria 499
dimenhydrinate; and cyclical vomiting syndrome (Letter) 325
DNA polymorphism analysis; in transfusion-associated graft-versus-host disease 98
Down syndrome; respiratory morbidity of hospitalized children 383
drug monitoring; a novel approach to monitoring adherence to preventive therapy for tuberculosis in adolescents 350

early linear growth retardation; potential risk factors in Chongqing, China 272
echocardiography; its use in the diagnosis of congenital heart disease 387
ecthyma gangrenosum; a very early herald of acute lymphoblastic leukaemia 505
emergency department; children at risk from parental alcohol misuse 196
emotional well-being; physical health concerns amongst young people in Victoria 28
enteral nutrition; percutaneous endoscopic gastrostomy in children (Review Article) 427
enterovirus 71 infection; outbreak in Malaysia (Letter) 107
epidemiological survey; recurrent abdominal pain in a rural Malay school 303
ethics of research in children (Policy Statement) 514
ethnic differences; *Helicobacter pylori* infection in Malaysian children 151
extremely low birthweight infants at 2 years of age; the influence of growth on development outcome in 37

family stress; and atopic dermatitis (Annotation) 229
fetal defaecation; a normal physiological process? (Review Article) 116
fixed cast stretching; comparison of botulinum toxin A injections and 71

galactose-1-phosphate uridyl transferase; deficiency in a full-term Chinese neonate (Editorial Comment) 399
gastro-oesophageal reflux disease
clinical profiles and outcome 568
controlled study of infants with feeding problems 163
following percutaneous endoscopic gastrostomy (Review) 427
gastroschisis; cisapride and Caesarean section, their role in babies with 181
general practitioners; ongoing care of postdischarged patients with asthma 251
genes for jaundice (Review Article) 522
genetics
advances in Rett syndrome (Review Article) 419
in Prader–Willi syndrome (Review Article) 331
Rett syndrome (Letter) 593
genetic testing, the diagnosis of Prader–Willi syndrome (Annotation) 335
gentamicin dosage intervals in neonatal intensive care (Letter and Reply) 411, 412
glucose-6-phosphate dehydrogenase deficiency; and neutrophil function (Letter) 324
gonadoblastoma; risk in female patients with Y chromosome abnormalities and dysgenetic gonads 210
group A streptococcal myositis infection 588
group B streptococcal infection with parotitis (Letter) 224
growth failure; in cystic fibrosis 86

H5N1 avian influenza infection; complications of adult respiratory distress syndrome and Reye's syndrome 207
haemophagocytic lymphohistiocytosis; bone marrow transplantation in children for 55
HbA_{1c} concentrations; metabolic control in patients with insulin-dependent diabetes mellitus 479
heart defects; evolution of diagnostic trends in congenital heart disease 387
hepatitis B virus infection; genetic marker associated with non-response to recombinant hepatitis B vaccine by indigenous Australian children (Letter) 412
history of childcare; through postage stamps (Occasional Article) 232
home visiting; a randomized controlled trial for vulnerable families with newborns 237
hospitalization; asthma among Aboriginal children compared to non-Aboriginal children of the Top End of the Northern Territory 438
human immunodeficiency virus; in women at delivery using unlinked anonymous testing of newborns in Malaysia 63
hydrops fetalis; radiofrequency catheter ablation in a haemodynamically compromised premature neonate with 406
hypernatraemic dehydration; and fever in exclusively breast-fed infants 585
hyperoxic and hypoxic episodes; alarm settings of Marquette 8000 pulse oximeter 159
hypotonic–hyporesponsive episode; vaccination of children following a previous 549

immunization
following a previous hypotonic–hyporesponsive episode 549
resurgence of measles in Singapore, profile of hospital cases 493
infants
feeding problems in gastro-oesophageal reflux disease 163
parents beliefs about infant teething 446
Salmonella meningitis and its complications in 379
inflammatory bowel disease; and coeliac disease 204
influence of growth on development; in extremely low birthweight infants 37
information technology; medical students training and (Annotation) 11
inhaled budesonide; in acute asthma 483
injury prevention; death and injury pattern in New South Wales, Australia 572
interferon 2-alpha; management for subglottic haemangioma 392
invasive meningococcal infection
in Sydney children 67
in Western Australia 42
iron-deficiency-anaemia; randomised-trial and patient-complience in an Aboriginal community 153
isoniazid; therapy for tuberculosis in adolescence 350

Jaffe reaction; interference by nitromethane 503
juvenile mania; and attention deficit hyperactivity disorder 199

laparoscopy; for gonadoblastoma in female patients 210
laparotomy; for necrotizing enterocolitis, intensive care nursery compared with operating theatre 291
leukaemia; varicella vaccine in non-immune household contacts of children with cancer or 341
Level IV neonatal intensive care unit; autopsy following death in a 185
lower respiratory tract infection; viral aetiology in young Malaysian children 287
lung function; outcome in children of premature birth (Review Article) 516

McCune–Albright syndrome; multiple neonatal endocrinopathies in 315
magnetic resonance imaging; localization of affected muscle in group A streptococcal myositis infection 588
Marquette 8000 pulse oximeter; alarm settings to prevent hyperoxic and hypoxic episodes 159
measles; resurgence in Singapore and profile of hospital cases 493
medical students training in paediatrics and child health (Annotation) 11
medication; in young children (Letter) 325
meningitis
Bacillus cereus 582
psychosis following treatment with antituberculous therapy 319
mental
development; and breast-feeding 82
mental retardation; stress experienced by mothers of Malaysian children with 358
methylation analysis (Annotation) 335
mortality;
changes in the causes of death in preterm infants 255
multiple organ dysfunction syndrome 488
Moyamoya disease; in a child with neurofibromatosis type-1 (Letter) 108

multiple organ dysfunction syndrome; sepsis, severe sepsis and septic shock in 488
muscular dystrophy; the role of palliative care in 245
myocardial infarction; complicating neonatal enterovirus myocarditis 309
myositis; group A streptococcal infection 588

nasal continuous positive airway pressure; in preterm infants 367
necrotizing enterocolitis; laparotomy in the intensive care nursery compared with operating theatre 291
neonatal autopsy; evaluation of autopsy following death in a Level IV neonatal intensive care unit 185
neonate
  amikacin administration and potential toxic effects 283
  bacterial endocarditis 545
  clinical manifestations of *Bacillus cereus* meningitis in the 582
    significance of quantitative blood cultures in newborn infants 578
  endocrinopathies in McCune–Albright syndrome 315
  jaundice and sun exposure 296
  laparotomy for necrotizing enterocolitis: intensive care nursery compared with operating theatre 291
  Marfan syndrome 321
  suprapubic aspiration 34
  surfactant protein B deficiency (Letter) 592
  umbilical vascular catheter-associated thrombosis 460
  urinary tract infection 34
neonate intensive care
  bacterial endocarditis 545
  gentamicin doses and dose intervals (Letter and Reply) 411
neurodevelopmental outcome study; very low birthweight infants admitted to a Malaysian nursery 175
neutrophil function; in glucose-6-phosphate dehydrogenase deficiency (Letter) 324
nitromethane; elevated creatinine after ingestion of model aviation fuel, interference with the Jaffe reaction by 503

obstructive sleep apnoea
  aetiological factors and development in children with 140
  clinical versus polysomnographic profiles in children 49
  six-month follow-up of children with 136
oesophageal atresia; anastomotic complications (Review) 120
oncology; epidemiology of *Cryptosporidium parvum* in symptomatic paediatric oncology patients 300
opportunistic vaccination; evaluating the potential in a Northern Territory hospital 472

paediatric
  poisoning; and Camphor toxicity 105
  training; an evidence-based approach to (Editorial Comment) 14
paediatrica philatelica (Occasional Article) 232
palliative care; its role in advanced muscular dystrophy and spinal muscular atrophy 245
pancreatic enzyme replacement therapy; in cystic fibrosis (Clinical Practice) 125
papilloedema; secondary to acute purulent sinusitis 396
parents
  survey of Australian parents beliefs about infant teething 446
  concerns; value in detecting and assessing developmental problems (Review Article) 1
Peabody Picture Vocabulary Test-Revised; behavioural and cognitive associations of short stature at 5 years 562
percutaneous endoscopic gastrostomy; limitations in facilitating enteral nutrition in children (Review Article) 427
percutaneous external drainage; in traumatic pancreatitis 78
physical health; concerns amongst young people in Victoria 28
pneumococci; antibiotic resistance in healthy children 558
polysomnographic profiles; in children with obstructive sleep apnoea 49
polysomnography; awake daytime oximetry measurements in the management of infants with chronic lung disease 553
postoperative ventilation; effect on the integrity of the anastomosis in repaired oesophageal atresia (Annotation) 120
post-traumatic stress disorder; in children and their parents (Letter) 325
postural support cloth nappies; effect of temperature stability in very preterm infants; 363
Prader–Willi syndrome
  behavioural problems (Review Article) 331
  diagnosis (Annotation) 335
prednisolone treatment; for progressive diaphyseal dysplasia (Camurati–Engelmann disease) 401
pregnancy; repeated adverse fetal outcome complicated by uncontrolled material phenylketonuria 499
premature
  infants; retinopathy of prematurity in infants less than 32 weeks' gestation 355
  lung function outcome in children (Review) 516
  safety of synthetic surfactant use before preterm newborn transport 530
preschool children; risk factors for recurrent urinary tract infections 454
preterm infant
  changing mortality and causes of death in 255
  post-extubation prophylactic nasal continuous positive airway pressure 367
  severe congenital absence of skin in a 306
  transient leukopenia/neutropenia; stat doses of frusemide in a (Letter) 591
  transport of 530
  transverse cerebellar diameter; cranial ultrasound scan in 346
progressive diaphyseal dysplasia; deflazacort treatment in (Camurati–Engelmann disease) 401
psychiatry; adolescent and child psychiatric outreach service for rural New South Wales, a telemedicine pilot study 525
psychosis; following treatment for meningitis 319
psychostimulant medication; factors associated with medium-term response to 264
pulse oximetry; alarm settings for the Marquette 8000 pulse oximeter to prevent hyperoxic and hypoxic episodes 159
purulent sinusitis; papilloedema complications in 396

quantitative blood cultures; in newborn infants 578

radiofrequency catheter ablation; in a haemodynamically compromised premature neonate 406
randomised controlled trials; Australian Aboriginal health needs 130
recurrent abdominal pain; an epidemiological survey in a rural Malay school 303

recurrent late onset group B streptococcal infection with parotitis (Letter) 224
recurrent urinary tract infection; risk factors in preschool children 454
rehospitalisation; of very preterm infants in their first year of life 145
resistance; *Streptococcus pneumoniae* isolated from children and antibiotic 558
respiratory
failure, due to surfactant protein B deficiency 214
morbidity, hospitalized children with Trisomy 21 383
retinopathy of prematurity; in infants less than 32 weeks' gestation at birth 355
Rett syndrome
clinical update and recent genetic advances (Review Article) 419
genetic breakthrough (Letter) 593
H5N1 avian influenza infection in a human with complications of 207
rolandic epilepsy; centro-temporal spikes in children with 60
Royal Australasian College of Physicians – Division of Paediatrics (College Statement) 115

Salmonella enteritis
antibiotic therapy for (Editorial Comment) 338
oral azithromysin, cefixime and no antibiotics in the treatment of 372
Salmonella meningitis; complication in infants 379
sepsis; paediatric multiple organ dysfunction syndrome 488
septicaemia; evaluation of quantitative blood cultures in newborn infants 578
seroprevalence; *Helicobacter pylori* infection in Malaysian children, ethnic differences in childhood 151
human immunodeficiency virus prevalence in women at delivery 63
serum sickness; the role of cefaclor (Letter) 223
short stature
behavioural and cognitive associations at 5 years of age 562
risk factors associated with 272
Singapore; resurgence of measles and profile of hospital cases 493
skin cancer; why do mothers still sun their infants? 296
skull; tuberculosis of the frontal bone 221
sleep related behaviour; of children with obstructive sleep apnoea 136
sleeping position; infant care practices in a metropolitan Aboriginal population 541
smoke exposure; infant care practices in a metropolitan Aboriginal population 541
spinal muscular atrophy; the role of palliative care in 245
stethoscope; its uses (Letter) 413
Streptococcus pneumoniae
antibiotic resistance in children 558
antibiotic resistance in Northern Territory children in day care 466
invasive disease due to 67
stress; experienced by mothers of Malaysian children with mental retardation 358
subglottic haemangioma; controversies in management 392
sudden infant death syndrome
autopsy protocols in the diagnosis of (Annotation) 432
infant care practices in a metropolitan Aboriginal population 541
suffocation; shaking or sudden infant death syndrome (Annotation) 432
sun exposure; why do mothers still sun their infants? 296
surfactant administration; prior to transportation of preterm newborn 530
surfactant protein B deficiency
clinical, histological and molecular evaluation 214
molecular confirmation (Letter) 592
symptoms; parents beliefs about infant teething 446
synthetic surfactant; its use before preterm newborn transport 530
systematic review; randomised controlled trials of Australian Aboriginal health needs 130

teething; parents beliefs about 446
telemedicine; a child and adolescent outreach service for rural New South Wales 525
temperature stability; nappy liners in very preterm infants 363
thrombosis; umbilical vascular catheter-associated 460
toxicity; once versus twice daily amikacin administration in neonates 283
transfusion-associated graft-versus-host disease; DNA polymorphism analysis in 98
transient leukopenia/neutropenia; stat doses of frusemide in a preterm infant (Letter) 591
transition; paediatric to adult care for persons with cystic fibrosis 442
transmission; tuberculosis from a seven-year-old child in a Sydney school 375
transverse cerebellar diameter; cranial ultrasound scan in preterm neonates in an Australian population 346
traumatic pancreatitis; initial non-operative management in children with 78
treatment outcome; for attention deficit hyperactivity disorder 264
Trisomy 21; respiratory morbidity of hospitalized children 383
tuberculosis
monitoring adherence to preventive therapy in adolescents 350
of the frontal bone of the skull 221
transmission from a seven-year-old child in a Sydney school 375
twins; national birthweight percentiles by gestational age for twins born in Australia 278

ulcerative colitis; in a child 204
ultrasonography; measurement of transverse cerebellar diameter on cranial ultrasound scan in preterm neonates in an Australian population 346
umbilical vascular catheter-associated thrombosis; in newborn infants 460
uncontrolled maternal phenylketonuria; repeated adverse fetal outcome in pregnancy 499
urethral catheterization; a successful alternative to suprapubic aspiration in neonates? 34
urinary tract infection; is urethral catheterization a successful alternative to suprapubic aspiration in neonates? 34

vaccination
following a previous hypotonic–hyporesponsive episode 549

opportunistic vaccination in a Northern Territory hospital 472
varicella vaccine in non-immune household contacts of children with cancer or leukaemia 341
ventilation; evaluating the effects of critical illness children and their parents (Letter) 325
liquid ventilation; therapy for infants and children with respiratory problems (Annotation) 434
very low birthweight infants
neurodevelopment outcome study of babies admitted to a Malaysian nursery 175
post-extubation prophylactic nasal continuous positive airway pressure in preterm infants 367
very preterm infants
cohort study of 145
effect of nappy liners on temperature stability in 363
hospital readmissions in the first year of life in 145
videoconferencing; in a child and adolescent outreach service for rural New South Wales 525

World Health Organization; acute flaccid paralysis surveillance in Australia 536

Y chromosome abnormalities; risk of gonadoblastoma in female patients with 210
